ADVANCE YOUR BOUNDARIES IN THE FIELD OF TECHNOLOGY AND DESIGN.

REACH HIGHER WITH SUTD AND MIT

The MIT-SUTD Dual Masters' Degree Programme, offered in collaboration by the Massachusetts Institute of Technology (MIT) and the Singapore University of Technology and Design (SUTD), aims to support and promote outstanding researchers to maximise their potential in the fields of technology and design.

SUTD is established in collaboration with MIT and is slated to be the first university in the world to integrate design and innovation with research and engineering. Its mission is to advance knowledge and nurture technically-grounded leaders and innovators to serve societal needs. This will be accomplished with a focus on design, through an integrated multi-disciplinary curriculum and research. SUTD will be a centre for learning, knowledge creation and dissemination and a melting pot for scholarship and practice.

MIT's mission is to advance knowledge and educate students in science, technology and other areas of scholarship that will serve the nation and the world in the 21st century. It is committed to generating, disseminating, and preserving knowledge, and to working with others to bring this knowledge to bear on the world's great challenges. MIT is dedicated to providing its students with an education that combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of a diverse campus community. It seeks to develop in each member of the MIT community the ability and passion to work wisely, creatively, and effectively for the betterment of humankind.

THE MIT-SUTD DUAL MASTERS' DEGREE PROGRAMME

This is a two-year full-time programme leading to two master's degrees, one from MIT and another from SUTD. Candidates will spend one year in MIT, USA, and one year in SUTD, Singapore.

In the first year, candidates will spend 9 to 13 months in one of the following programmes offered by MIT:

- | | |
|--|---|
| 1. Civil and Environmental Engineering's Master of Engineering Program, specialising in one of four tracks: <ul style="list-style-type: none">• Environmental and Water Quality Engineering• Geotechnology• High-Performance Structures• Transportation | 2. Master of Engineering in Manufacturing Program |
| | 3. System Design and Management Program, leading to a Master of Science in Engineering and Management |
| | 4. Supply Chain Management Program, leading to a Master of Engineering in Logistics |

This will be followed by another year at SUTD completing a second thesis by research and obtaining a Master of Engineering (Research).

ADMISSION REQUIREMENTS

This programme is for bright, talented and enthusiastic individuals from all nationalities with a passion for technology and design and a desire to advance boundaries in the field.

Applicants must possess:

- A bachelor's degree in Engineering or Science, or equivalent;
- An appropriate GMAT or GRE score; and
- A proficiency in English. IELTS is required if English is not your native tongue or if the medium of instruction in tertiary studies (undergraduate degree) was not exclusively in English.

Please also check the websites of the individual MIT Master's programmes for specific admissions requirements.

A holistic selection process will be adopted. Besides academic credentials, candidates will also be assessed on other criteria, including maturity, ambition and drive, work experience, English language skill, managerial progress, leadership potential, personal objectives and academic aptitude.

Short-listed applicants will be interviewed in person or, in some cases, via telephone or Skype.

APPLICATION PROCESS

Interested applicants must submit separate applications to MIT and SUTD at:

- **MIT:** web.mit.edu/admissions/graduate
- **SUTD:** admissions.sutd.edu.sg/graduate

Candidates will be notified of admission decisions by each institution separately.

SPONSORSHIP AWARD

All successful candidates to the Programme may be provided with full sponsorship, covering:

- Full tuition fee in MIT and SUTD
- Monthly stipend in MIT and SUTD
- Medical insurance in USA and Singapore
- Return economy-class airfare (SG - USA (MIT) - SG)

All candidates who accept the offer of admission must undertake to complete the programme in the prescribed time period and manner in which it is offered.
