We believe that design goes beyond aesthetics - it transforms the way we live. The power of Design is deeply rooted in understanding the human experience and needs, and then creating innovative products, services and systems to meet and improve them.

As a university founded with the goal of educating new generations of technically grounded leaders and innovators to serve societal needs, we recognise the importance of offering opportunities to those who deserve and need them. As such, we strive to offer new initiatives to fund your education at SUTD, empowering you to pursue your passion to build **a better world with the power of design.**
