

# ADMISSION REQUIREMENTS

SUTD practices a comprehensive review of applications, where we consider all academic and personal attributes to assess if you are able to cope with the rigour of our programme and will fit in well. For the former, we look for evidence of competency in Mathematics and the Sciences, i.e. Physics or Chemistry.

With our unique cohort-based and active learning approach, we believe that students who work well in teams, who are not afraid to question the norm and be different, who are intellectually curious, who persevere in the face of difficulties, and who are comfortable being hands-on, will fit in excellently in SUTD.

## Academic preparedness

You may apply with either:

- GCE A-Level
- Polytechnic Diploma
- NUS High School Diploma
- International Baccalaureate Diploma
- Other high school qualifications (English proficiency, e.g. IELTS, TOEFL, SAT, PTE Academic, ACT or C1 Advanced, required for those where English is not the medium of instruction)

Include your GCE O-Level or equivalent junior high results to support your application

## Personal attributes

Tell us who you are and why you are a good fit for SUTD, through your:

- Recent and past experiences in leadership, participation in research/internship/entrepreneurship programmes, community service, and any significant achievements
- Responses to our Personal Insight Questions
- Testimonials or referees' contact details (optional)
- Portfolio (optional)

All shortlisted candidates will be invited to attend an interview, either in-person at SUTD campus or online.
