

SUTD TECHNOLOGY ENTREPRENEURSHIP PROGRAMME (STEP)

A special integrated programme that aims to immerse and nurture a new generation of technically-grounded leaders in a world of innovation and entrepreneurship opportunities.

With a curriculum that spans over 10 academic terms, students will go through a design-centric education that combines their mastery of a specialised technological field with entrepreneurial acumen, exposes them to real-world start-up processes, immerses them in vibrant entrepreneurial ecosystems in different countries, and builds upon what they learn to complete a MSc Project (thesis).

- Students will graduate with two degrees from SUTD:
- **Bachelor of Engineering/Science in one of the majors**
 - **Master of Science in Technology Entrepreneurship**

Entrepreneurship workshop at ASEAN

^ Choose between Entrepreneurship Capstone and Capstone

* Students may also embark on an exchange in Term 8 with the possibility of a follow-up summer overseas internship

- Compulsory
- Optional

Why STEP?

- Unprecedented opportunity to experience and venture into the realm of Technology Entrepreneurship through a year of global immersion exposure.
- Be exposed to real world experiential learning.
- Potential to be employed in a wide-range of startup industry sectors, be hired as intrapreneurs in MNCs, or realise dreams of starting your own tech business.

Application and Scholarships

Application is open to all nationalities who fulfil the following criteria:

- Have outstanding academic results.
- Demonstrate strong communication skills and leadership potential.
- Are entrepreneurial, innovative, dynamic, resilient, energetic, risk-taking and responsive.

In the online application to SUTD, students should indicate their interest in STEP and complete two short-response questions on their motivation, entrepreneurial experience and interest. Shortlisted candidates will be invited to attend a STEP Applicant Day and an interview with a member of SUTD's senior management team.

Up to 30 attractive, bond-free scholarships covering tuition fees and study-related expenses during the one year overseas programme will be awarded to outstanding Singapore Citizens offered admission to the programme.
