CAREER DEVELOPMENT CENTRE

SINGAPORE UNIVERSITY OF TECHNOLOGY AND DESIGN

The SUTD Career Development Centre (CDC) partners our students to prepare them for the industry and a meaningful career through professional career guidance, experiential career modules and internships. We play an active role to guide our students in achieving their career aspirations. CDC also works closely with industry partners and employers to bring about career and networking opportunities for students to meet with their potential employers.

Industry Engagement

- Industry talks and insights by industry practitioners and HR professionals.
- Campus recruitment events with diverse employers and industries.
- Increased awareness and appreciation of career opportunities in mainstay and emerging industries.
- Company visits hosted by employers to expose students to actual business and operational settings.
- Increased awareness and appreciation of career opportunities in mainstay and emerging industries.

Internships

- Mandatory 16-week internship provides opportunities for students to develop their technical and soft skills.
- Provides insights and opportunities for students to apply the knowledge.
- More than 1,000 internship openings for students to choose from.

Undergraduate Practice Opportunities Programme (UPOP)

- A flagship career module to prepare students to be career-ready by imparting essential career skills such as resume writing, interviews and networking.
- The highly experiential and practical sessions are conducted by SUTD career advisors and professional consultants, offering insights to help students navigate the graduate employment market and kick-start their career planning early.
