WHERE BOLD MINDS DESIGN & INNOVATE FOR A BETTER WORLD

3D-Autoregressive-Furniture

AI-generated 3D CleanNFTs minted for a charitable fundraising initiative on the more environmentally sustainable Proof-of-Stake blockchain by SUTD’s Assistant Professor Immanuel Koh (ASD and DAI).
Then we have the answer for you.

At SUTD, we believe in bringing out the best in our students by instilling in them strong design-thinking skills – skills which will enable them to make a difference when they go out into the world. Skills which can change the way people live and play, which can help solve major socio-economic issues resulting from global problems like climate change, and which will remain relevant years after you graduate.

From Day One, our students are taught how to problem-solve and work in teams to find solutions using multiple disciplines. Your major won’t be the only skill you learn – because that’s not how SUTD is wired. We believe that specialists don’t have to be one-dimensional – just like the world isn’t.

Our graduates are design innovators who have gone on to make a difference in the world. You can too!

If you’re curious if you have what it takes to be a SUTD student, or if you have questions about our programmes, please scan the QR code to talk to one of our Tauku, or visit our website to find out more.

Bon voyage!
17 GRADUATE PROGRAMMES

MASTER’S PROGRAMME

- Dual Masters in Nano-Electronics and Design
- Master of Architecture
- Master of Engineering (Research)
- Master of Innovation by Design
- Master of Science in Security by Design
- Master of Science in Technology and Design (AI Empowered Built Environment)
- Master of Science in Technology and Design (Cybersecurity)
- Master of Science in Technology and Design (Data Science)
- Master of Science in Technology and Design (HealthTech Innovation)
- Master of Science in Technology and Design (Human-Centred Design)
- Master of Science in Technology and Design (IC Design, Failure Analysis and Reliability)
- Master of Science in Technology and Design (Robotics & Automation)
- Master of Science in Technology and Design (Sustainable Product Design)
- Master of Science in Urban Science, Policy and Planning

PHD PROGRAMME

- SUTD PhD Programme
- SUTD-NUS Joint PhD Programme
- SUTD Engineering Doctorate (EngD) Programme

SUTD ACADEMY (CONTINUING EDUCATION AND TRAINING)

Upskill and stay abreast of today’s tech-driven economy with a comprehensive range of long and short-term programmes.

- Short Courses
- SkillsFuture Career Transition Programme (SCTP)
- MyModularMaster® Programme
- Tailored Corporate Training

SCHOLARSHIPS

Outstanding students can be considered for attractive, bond-free scholarships either by SUTD or supported by donors. These scholarships for undergraduates provide opportunities for overseas exposure as well as for the development of leadership skills as a University Ambassador.
Only university in the world to offer a truly unconventional, interdisciplinary education.

90% of undergraduate curriculum developed by MIT.

1 Source: ‘The global state of the art in engineering education’, a study commissioned by the Massachusetts Institute of Technology (MIT).

SUTD'S DESIGN
Dive into the full spectrum of SUTD’s Design, from ideation to implementation. This all-encompassing training fuels your creativity, hones your problem-solving and cultivates a deep appreciation for the art of innovation in the creation of human-centric solutions.

REAL-WORLD APPLICATION OF KNOWLEDGE
Throughout their time with SUTD, undergraduates will have worked on over 20 different design projects spanning diverse, emerging real-world challenges. Our strong industry ties also ensure that all students can look forward to experiences such as consulting with Dyson engineer mentors in the Dyson-SUTD Innovation Innovation Studios.

GLOBAL EXPOSURE FOR ALL UNDERGRADUATES
Travel the world through field trips, exchange programmes and internships.

11:1 STUDENT TO FACULTY RATIO
Enjoy small classroom sizes for more effective, collaborative learning.

THEORIES BROUGHT TO LIFE
Learn through interactive, hands-on classroom experiences - simulations, live demos, designettes and more. You can also bring your design ideas to life at the SUTD Fabrication Lab.

DIVERSE PERSPECTIVES
Embrace diversity with a cohort that is at least 40% female.

Learning beyond the walls of the classrooms:
SUTD is the only university in the world to offer a truly unconventional education with an interdisciplinary pedagogy. All students, regardless of majors, will be exposed to integrating knowledge from all disciplines, throughout all levels of study in the university as part of their training.

This dynamic interdisciplinary approach empowers students and faculty to develop human-centric solutions that are more creative and holistic.

Our curriculum provides students a strong foundation in science, mathematics and technology to build foundational literacy for future careers and endeavours. We also foster creativity and entrepreneurship and emphasise the importance of broad perspectives informed by the humanities, arts and social sciences.

Why SUTD

SUTD’s unique multi-disciplinary curriculum gives their graduates an edge in integrated solution and systems thinking, especially important under the changing aviation landscape.
NURTING "DESIGN INNOVATORS" WITH UNIQUE SKILLS

What our students are trained to be:

- Human-Centric Designers
- Global & Systems Thinkers
- Makers (of anything)

THE SUTD ENTREPRENEURIAL DNA

The power of innovation has cultivated a strong entrepreneurial culture with 80 start-ups at SUTD. Check out some of these start-ups by SUTD alumni.

- BEEP
  Digitising payment solutions.
- STICK’EM
  Making STEAM education accessible to all.
- SGP FOODS
  Building Singapore’s food and climate resilience.
- AFFABLE
  Discovering, engaging and measuring authentic social media influence with AI.

Learn about our SUTD faculty, alumni and students featured in Forbes 30 under 30 Asia Class of 2023.

CORNERSTONES OF THE SUTD EXPERIENCE

LEVERAGING THE WORLD AS YOUR CLASSROOM

Build a global perspective with opportunities to travel the world through exchange programmes, summer and winter programmes, research programmes, internships and more.

- Global exposure and immersion opportunities for ALL STUDENTS*
- >30 summer programmes.
- 74 partner universities in 25 countries.
- >270 student exchange opportunities.

FACT

Freshmore Asian Cross-curricular Trips (FACT): Subsidised trips to Asia for all Freshmore students.

* Includes trips, internships and collaboration with international companies.

RESEARCH OPPORTUNITIES

Besides working on industry projects during class, you’ll also have the chance to be part of groundbreaking research.

- All undergraduates get to do research right from Day One, with ready access to funding and faculty mentors.
- Over 7,307 publications and 144,259 citations.
- Over 447 technology disclosures, 255 patents filed, and 36 patents granted.
- 17 research centres since 2010.
- Over $602 million external research funding secured since 2010.

Data as of 31 March 2023

WORLD-CLASS FACULTY

TOP 2%

About one-third of SUTD’s faculty is listed among the world’s top 2% of scientists* so you’ll be learning and working alongside some of the best in the world!

* Source: Database released by Stanford University and Elsevier BV that identifies the world's top scientists across 22 scientific fields and 174 sub-fields.
