To acquire the knowledge to build a better world, we first designed our library.

To offer my perspective on educational matters ranging from classroom systems to fabrication labs and having a hand in realising them was a fulfilling prelude to a captivating university life.

Lee Tat Lin

While conceptualising the library of the future, I’ve discovered limitless possibilities in design. I enjoyed the opportunities to interact and learn with professional librarians, architects, and industry leaders to realise my design.

Jessie Tang

Designing and shaping the library was truly an exciting and awesome experience. From selecting the facilities to designing the interiors, how often does one get the opportunity to shape their ideal school from scratch?

Amos Chia

My time in the housing committee was highly enriching as I was involved in choosing the furniture, designing the survey to sort students into apartments and coordinating bulk buying of common household items.

Ann Wee

At SUTD, we strongly believe in offering students hands-on experience from day one. By empowering them to take creative ownership of shaping the campus culture and facilities, we hope to give them a head start. To enjoy a revolutionary education for an exciting career and to build a better world, visit www.sutd.edu.sg

A BETTER WORLD BY DESIGN.
